Certified Organic Food

Nutritious, Poison-less & Farmfresh Veggies & Fruits
On demand grown for our customers.

Research

We research on 'what's wrong' to counter it

Farming

We farm for Indians, you just have to sign-up

Distribution

Wherever we grow, we make sure it reaches you

Processing

Not just Veggies & Fruits, we will serve much more!

Know what's right | Eat what's right

WHY URJA FARMS

Because we are one of the few companies those want you to eat right. We are working so that food provides nourishment to people.

1. Urja Farms controls farming practices conducted at the farms of its farmers.
2. Urja Farms uses its own bio-fertilizers, bio-pesticides & growth promoters where organic farming is conducted.
3. Our farmers who carry natural farming practice use homemade fertilizers & pesticides
4. We define the quality: what just looks good and fresh is not good.
5. We test the soil in the lab according to the defined schedule to ensure the quality

“POISON-LESSFOOD”?

Many researches around the world bring forth the fact that inorganic food causes cancer and is hazardous for human consumption. Further, some evidence exists that the synthetic substances used to produce inorganic food items may cause long-term damage to the land, ultimately making the land less fertile or non-fertile. Talk to us to get more details and researches on this topic. Urja Farms believes that every human should be eating food which is not just “Poison less” but should provide optimum nutrition to human body. Urja Farms believes in farming practices like Organic Farming, Zero Budget Natural Farming (ZBNF) etc.

ZBNF practice of farming believes in natural growth of crops. Vegetables & Fruits in this practice are naturally produced, without adding chemical fertilizers and chemical pesticides or any other foreign elements. This practice is performed with minimal human interference. Wish to learn more about ZBNF? [Click here.](#)

Our Mission

Provide 'Poison-less' food, to people

- Stand against cancer and other hazards by supplying 'Poison-less' food to people
- Create an access to 'Poison-less' food, for people
- Encourage farmers who have adopted farming practices like SPNF (Natural Farming), Organic Farming etc. by selling and distributing their produce within the society
- Spread awareness among consumers & farmers
- Promote farming practices that do not harm the land and affect its fertility.

Our Vision

"Only Organic, Total Nourishment"

Urja Farms envisages India consuming organic produce only. Short Term Targets of the Organization

Year 1 Target

To open 10+ stores in Nashik city
To supply in bulk in Mumbai and fulfil demand of minimum 13000 consumers.

Year 2 Target

To spread in the city of Mumbai & Pune through various business models

Value of Urja Farms

'Credibility'

The quality of being trusted and believed in.

Quality Measures & Awards

We are not just working to ensure quality; we are trying to improve the quality.

When we say quality we are focusing on nutrition and not appearance

HappyCustomers

Reviewsandfeedbacksfromcustomers

Arpit Ninawe

Businessman & Motivational Speaker
Rajiv Nagar, Nashik

“Had a great experience of naturally grown vegetables. Me and my family really felt the difference between the regular vegetables which we buy from the market. Really happy to get natural vegetables with reasonable and with the same rates which are going in the market.

This is actually very important ; Quality + Affordable . Because usually when things are organic their prices are high in the market. Thanks to Urjafarms for making this facility available for everyone.“

Subhash Lagali

Ex-ArmyOfficer
Ashoka Marg,Nashik

“The most valuable feedback for me about veggies and fruits supplied by Urjafarms was given by my father. He simply told me that the taste, fragrance and look of this produce is almost like he used to eat when he was young .

That was the time when majority of farmers were not using chemicals. Thanks to Urjafarms for their effort.“
